

**Features**

- » High strength aluminum alloy precision casting shell. Impact-resistance, anti-corrosion, dampproof and salt fog-proof can be up to IP67. The heavy-duty designing allows the better Stabilization performance.
- » Zooming Capacity 2KM to 25KM (PTZ with Fog Clear) Visible HD image, Laser-assisted illumination, integration, 24 X 7 HD switch the back-end control
- » Visible imaging with continuous zoom, real-time auto-focus function
- » For use in bad weather, can be an effective imaging environment, even in total Darkness, Fog, Rain, Snow and Smoke.
- » Intelligent integration of overloading the head, variable speed control, which the sacn, preset cruise and other functions, real-time data back to apss front-end work.
- » Intelligent all-weather remote monitoring device structure integrated overall package, install, easy to maintain, the national patent products.
- » Support the secondary development function, can be combined with GIS, Radar for precise positioning.
- » Sensitive fire detection, Identification fast, Low false
- » Customized Solutions depends on the Client's requirement.

**Applications**

Forests, Nature Reserves, Grasslands, Farms Warehouses, Oil Bases, Military Bases, Legal Immigration, Border and Coastal Security, Fisheries Enforcement and Bridge Safety
